## Design and Production Details

- All products featuring the American Spirit map are produced using high-resolution digital transfer technology.
- This printing process delivers crisp detail and vibrant color that holds up to everyday use, including repeated machine washing and drying.
- Most products are manufactured in the United States, and decorated and shipped from within the lower 48 states within 7-10 business days of order.
- For smaller items where the full map cannot be displayed, a custom America 250 logo ensures a cohesive, recognizable look across the product line.
- All imagery is created from original photographs by Chris Austermann; both the American Spirit map and the America 250 logo are copyrighted works registered with the U.S. Copyright Office.
- Unit pricing is based on case quantity. Lower minimums are available on most items - see the Wholesale Price List for details.
